

parentDirectory

```
graph TD; A[parentDirectory] --- B[ABIF file 1]; A --- C[ABIF file 2]; A --- D["..."]; A --- E[ABIF file n];
```

The diagram illustrates a directory structure. At the top is a rounded rectangular box labeled "parentDirectory". A vertical line descends from the bottom center of this box and connects to a horizontal line. From this horizontal line, four vertical lines descend to the top center of four separate rounded rectangular boxes arranged horizontally below. These boxes are labeled "ABIF file 1", "ABIF file 2", "...", and "ABIF file n". The numbers "1", "2", and "n" are colored red, while the text "ABIF file" and the ellipsis are black.

ABIF file 1
